INDEX

This index covers articles published in BUSINESS AND HEALTH *from January 1988 through December 1988. It is a continuation of the cumulative index published in the December 1987 issue. In the subject index, categories appear in block capitals followed by descriptions of pertinent articles. In the author index, names appear as main heads, followed by descriptions of their articles as subheads. Page references take the form of month/year:page (for example, 9/88:56 is an article that appeared on page 56 of the September 1988* BUSINESS AND HEALTH*). News Roundup articles are identified by (NR) and Data Bank articles by (DB).*
